##### And What Have You

By BOB CRAIG

I found a letter in the front door Monday morning with a note on the outside saying: "Please revise and print if you have guts to do so." Well, if the person who wrote the letter has the guts to come by and sign it, we will consider running it.

It doesn't seem possible but it is graduation time again. Since our youngest one is part of this class it seems like it got here a lot sooner than we were ready for it to.

As a column writer I suppose I am obligated to pass along a few words of wisdom to the current class of graduates.

About the best we have seen in some time was a recent cartoon that offered the following commencement address: "Tell the graduates that the world is theirs... that should scare the Heck out of them!"

Seriously, the current crop of graduates probably have 10 years or so before the world's problems become their problems. And I don't envy them if the current generation does not come to grips with the problems facing us today.

We can not put off much longer the need to recognize that we have a serious energy problem. We just do not have many years left that we can continue to ignore this problem and pretend that it does not exist.

Inflation is another problem that the current generation must come to grips with or else the coming generations will find their whole life styles disrupted.

Another problem that needs to be solved now before it gets completely out of hand is the problem of too much government control over every thing we do. Bureaucracy seems to get bigger and bigger every year and no one seems to do anything about it but complain. All of it is done in the name of progress and our well being, but very little of it really has brought us any progress and has done nothing to help our well being.

We have the federal government dictating to the states and the states dictating to the local governments — city, school and county — and it all comes down to us—paying the bills and putting up with the pointless regulations.

You can add endlessly to this list of problems facing us today and none of them are really problems that can wait for this current class of graduates to become established enough in this world to handle. But if the rest of us don't start soon it may be too late by the time this new generation is ready to go to work on them.

As to advice to these graduates, that they can use now, we would pass along the following that Raymond Greenwood, editor of the *Burk Burnett Informer-Star*, had

## Little League Starts Fund Raising Drive

The Hamlin Little League will start a major fund raising project Friday and has set a goal of raising \$2,000 to help with the expenses of rebuilding the local Little League ball park. The youngsters will be taking orders for Westinghouse light bulbs.

Boys and girls taking part in the local baseball program will be offering three package options with delivery expected within two weeks after the close of the project, Friday, June 4.

The packages available will be either eight assorted bulbs, four 60 watt, two 75 watt, and two 100 watt; or three 3 way bulbs; or one outdoor floodlight. Each of the three packages will sell for \$3.75.

Jimmy Spalding, president, said, "This will be

our major fund raising project this spring. There are 150 youngsters who will benefit from the project and the money is badly needed to help pay for the new field which is located in the city park.

Every family contacted by the youngsters is urged to buy at least one package of bulbs, Spalding said.

Mayor Robert Fowler has proclaimed this week as Little League week in Hamlin and has urged all of the community to support this worthwhile project.

The youngsters will be taking orders during this concentrated sales period with all orders to be turned in by June 5. The youngsters will deliver the bulbs when they arrive in about two weeks after the close of the campaign.

# FROM THE FILES . . .

## FIFTY YEARS AGO (May 28, 1926)

This week, in fact Wednesday, the Gifford Construction Company of Dallas, took up their headquarters in Hamlin, to work out of here toward Anson, renewing all the bridges of the road on this end. This construction crew has been working from Abilene to Ballinger for several weeks, getting the bridges in first class condition. From here to Anson there are a number of bridges and possibly they will be several weeks completing the job.

Of course there is nothing extra unusual about a railroad re-building and renewing its track, but one would naturally think that evidently they are preparing for a new order of things possibly a big system is contemplating running heavy engines over the line. But the Herald has heard nothing of this.

On May 25th, 1926 a road meeting was held in the Opera House, at Hamlin, Texas in which there were committees from O'Brien, Rochester, Rule, Sagerton, Hamlin, McCaulley, Sylvester and Longworth.

The purpose of the meeting being to formulate plans for the extension of Highway No. 511, from Sagerton to Longworth, where it will intersect High No. 70.

The meeting was called to order by J. J. Waggoner, of Hamlin, who acted as Chairman. After the purpose of the meeting was stated by the Chairman, and after some discussion of the extension of Highway 51, a motion was made to the effect that an organization be created, that the plans and work might be continued in a systematic way until said Highway might be extended and designated by the State Highway Commission.

Upon motion the following officers were elected: J. J. Waggoner, of Hamlin, President, and H. O. Cassle of Hamlin, Secretary of the Organization.

Hamlin City Park has had considerable publicity. Everybody knows that Hamlin has an unusually spacious and pretty public park, one of natural beauty, because of its vast number of trees, mesquite, elm, hackberry, willow and wild chinaberry. Then it has a winding lake of real beauty beneath the trees, then there are other attractions, provided the weeds do not hide them from view. Now weeds is the "bone of contention," for everyone who has been down there, knows that the park is needing attention badly.

## TWENTY YEARS AGO (May 24, 1956)

Lives of toddlers and small children in

Hamlin are being endangered by the throwing of poison in yards, designed to kill dogs in the community, declare Hamlin city officials, who have been contacted by anxious parents.

Numbers of dogs have been killed by poison in Northwest Hamlin during the past several days, it is reported by owners.

It is pointed out by city officials that last year two children died in Texas as a result of eating poison no doubt intended for animals.

Churches of the Hamlin community will launch the annual vacation Bible school season with a gigantic parade to be staged on Hamlin's main streets Saturday afternoon, beginning at 5 o'clock, leaders of the city-wide program announced.

Children from all churches will be asked to march in the parade.

Formal organization meeting of a community storm warning committees is scheduled this (Thursday) evening at 7:30 at the Primary School cafeteria, it was announced first of the week by key individuals interested in civil defense and tornado work.

The session will further work already begun several weeks ago by the Hamlin Volunteer Fire Department, and will include representatives from civic and other clubs as a community project.

C. E. Stichter, in charge of the U. S. Weather Bureau at Abilene and others helping with the district organization, will attend the session and help with its organization.

Discussions at the gathering Thursday evening will include air attacks, warning systems, shelters, food, first aid and rescue teams.

Indications are that people of the Hamlin area are satisfied with results of the use of Salk vaccine as an immunization agent against dreaded polio. Hundreds of children of the area have been vaccinated, and reaction so far has been good.

Mary Margaret Willingham of Hamlin, daughter of Mr. and Mrs. Tarlton Willingham, has been cited as an outstanding senior at Stephens College at Columbia, Mo. where her name has been placed on the senior service roll, according to a release from the school to The Herald.

Miss Willingham received special recognition this week in the Stephens College yearbook, "for her immeasurable services to her class mates and Stephens; for her unique and capable contribution as chairman of Religion-in-Life Week; and for her guidance and inspiration as a senior sister."

## TEN YEARS AGO (May 26, 1966)

The Hamlin FFA Chapter held its annual Father-and-Son Banquet in the high school cafeteria, Tuesday, May 17. The banquet is given in honor of fathers of FFA members and friends of vocational agriculture and the FFA in the local community.

During the banquet Raymond Scifres, manager of the custom farming division of Pied Piper Farms, was awarded the Honorary Chapter Farmer Degree. Mr. Scifres was cited for his contributions to vocational agriculture and to the Hamlin Chapter of Future Farmers of America.

Highlight of the banquet was the presentation of this year's winner of the Fred B. Moore Jr. Agriculture Award to Jackie Buske, son of Mr. and Mrs. Jack Buske of the Tuxedo Community.

The Veterans of Foreign Wars and the Ladies Auxiliary met Tuesday night, May 17, for installation of officers.

Past commander Vernon Ely installed E. H. (Hoss) Cox as post commander of Post 6014.

Mrs. Cleo (Zelma) Perryman, past president, installed the following officers of the Auxiliary, Mrs. Jack (Maria) Robins, president; Mrs. E. H. (Mildred) Cox, treasurer and Mrs. Carl Green, secretary.

Approval of Hamlin's Head Start Program was received here Tuesday by Marvin D. Carlton, coordinator.

Federal funds allocated for the eight week program is \$12,531. This provides for 10 paid members on the staff and two volunteers, to serve 45 pre-school children in three classes.

Eleven graduates were entertained with a Coke party Tuesday evening, May 17, in the home of Mrs. Kenneth Riddle. Other hostesses were Mmes. Tom Brady, John Hudson, and Charlie Frank Turner.

God Bless...

God bless Mommie, Daddie, and all my friends at church . . .

"Hearken unto the voice of my cry, my King, and my God."

God's word has a great deal to say about prayer, for prayer is our means to communicate with God. Through prayer we can give thanks, petition for our friends, and seek God's wisdom for our daily living.

Make prayer a daily practice in your life.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

for his graduates.

"Traditionally people write of seniors hitching their wagons to a star and many other trite phrases. Maybe this year we should depart from this and put it in a 'slanguage' they might more easily understand.

"In CBer's lingo it might go like 'put your rear in gear and your hammer down.' In other words none of the good things are free and one should just make his mind up from the first that good old fashioned honest labor is the best way to achieve.

"Just because a person has a degree, be it high school or college, it doesn't give him a job nor does it necessarily mean he can handle the job even if it did. All the degree does is to give a person an opportunity and a basis to work with, then he must add the virtue work."

Congratulations to each graduate, both high school and college, may each of you find your place in the sun. I hope that each of you become part of life and not just an innocent bystander.

**AGENT ANNOUNCES— May 27-29 Dates to Spray Pecan Trees**

May 27-29 has been set for the date to spray pecans for the pecan nut Casebearer says Jones County Extension Agent, Kirby Clayton. Many pupa for the Nut Casebearer have already emerged in this area and eggs from the new generation adults are being laid and are hatching at this time says Clayton. Control measures should be applied during the time when the worms are young and easy to kill. For best results, Clayton recommends one application on May 27-28 and a second application 7-10 days later. Insecticides recommended include 50 per cent E.C. Malathion mixed at the rate of 8 teaspoons in 3 gallons of water or 12 per cent E.C. Guthion mixed at the rate of 4½ teaspoons in 3 gallons water. Where rosette is a problem zinc should be mixed

with the insecticide. Clayton cautions that all pesticides should be used according to instructions on container and that all users of these materials should take precaution against over exposure or breathing the materials. For further information on pecan insect control contact your County Extension Office.

**the gospel truth** by Bro. Marshall Townsley

"In righteousness shalt thou be established: thou shalt be far from oppression; for thou shalt not fear: and from terror: for it shall not come near thee. Behold, they shall surely gather together, but not by me: whosoever shall gather together against thee shall fall for thy sake." Isaiah 54:14, 15. God is not guilty! His love never carried with it destruction; only life. Everything he has provided was meant to benefit man. Many Christians have agreed with Satan that God is responsible. Let's look at this. First many of you look at the Old Testament and misuse it to prove your point. God actually placed a limit on the destroyer under the Old Covenant. He gave his law or word as a protective covering from the consequences of sin. If man chose to disobey, he placed himself in the hands of the adversary and the curses carried out by him. God the Father always made a way to escape sin, not place someone in it. The Passover story is a good example (Exodus 12:23). Notice the distinction between the Lord and the destroyer. In our scripture reference God said fears, oppressions, and terrors would gather together but he would not be responsible for it. Why not believe Him! After all, it is God speaking. The trouble is we'd rather listen to our best friend than Jehovah! "Let no man say when he is tempted, I am tempted of God: for God cannot be tempted with evil neither tempteth he any man." James 1:13 Let me ask you a question. Would you push your child out in front of an oncoming rain to teach him not to play on the railroad track? Not if you really loved him. Then why do you blame the Father who is perfect in his love? Jesus was God's express desire for you and me. He never in his ministry made someone sick; he healed them. Never did he kill; Jesus raised them from the dead. The Lord never brought fear with him; he delivered men from such evil. I am aware of the fact that this side of the gospel is rarely preached, but let me encourage you to ask the Holy Ghost to teach you the full truth of the matter through the Word. I John 2: 27 If any man preach any other gospel...let him be accursed. Write us Route 1 Box 1 Hamlin, Texas Thursday 7:30 p.m. Sunday 2:30 p.m. 1150 S. Central.

"Hello?" "Hi Marge, this is Suzie!" "Suzie, Suzie, Suzie! What a pleasant surprise!" "How are ya?" "I'm doing just fine. How are things with you?" "Oh, things are terrific around here since you left." "I'll bet. You know I miss you guys." "How do you like your new house?" "Oh, Suzie, it's terrific." "Did you get what you wanted?" "That and more." "Well?" "Well what?" "Tell me about your stupid new house." "Suzie, it's fabulous." "Did you get the big back yard you wanted?" "Three acres with a pond." "Do you have a garden?" "We have a greenhouse!" "Do you have a nice kitchen?" "A huge kitchen with all new appliances!" "Do you have some aspirin?" "Aspirin?" "Yeah, you're making me sick." "You should complain. You're not exactly living in a dump." "How does Fred like his new job?" "Suzie, he's a new man." "He likes it?" "He loves it. Absolutely loves it." "That's good." "How is Jack?" "Fine. He's going through a do-it-yourself phase right now." "Oh, good." "Everytime I ask him to do something, he yells 'Do it yourself!'" "Oh, not good." "When are you coming to visit us?" "When are you going to invite us?" "You know you have a standing invitation." "Yeah, but we'd rather sit." "I'm serious. When are you coming?" "Name a date." "How about in a few weeks...say the week of the 29th?" "Wait a minute, let me get my calendar...the 29th?" "That's a Saturday." "Yeah. Sounds good." "Okay, it's a deal. We'll be expecting you." "What do you want us to bring?" "Just your sense of humor." "No." "No?" "Just joking." "Funny." "You missed a great party at the Smiths' last night." "They had a party? They never have parties." "They've been waiting for you to move away." "What happened?" "Well, for starters, Jackie's dog ate the main course before any of the guests arrived." "You're kidding." "No. Then the air conditioning went on the blink." "No wonder they never had any parties. What did everyone do?" "We starved and perspired a lot." "Sounds awful." "Speaking of starving, how's the old diet?" "I'll tell you if you tell me." "125." "Oh, Susan! You've been cheating!" "No I haven't." "Well how can you lose weight if you've been eating?" "How about you?" "I'm not telling." "Come on." "One fxxvie five." "What?" "One fxxvie five." "Marge, you're mumbling." "One fxxvie five." "One forty five?" "Less." "One thirty five?" "See, that's not so bad." "That's terrible." "I know." "What's your excuse?" "A perfectly understandable insecurity resulting from having to adapt to new surroundings." "New surroundings. The only new surroundings you're gonna have to adapt to is the land surrounding your midsection." "Hey, look. Go easy kid. I don't have you to nag me anymore." "Well, it hasn't been easy for me either." "You wouldn't believe the food prices here." "Oh?" "Low." "Low?" "Low." "No wonder you're eating so much." "I'm not kidding." "Neither am I!" "...I'm saving about 15 dollars a week over what I used to pay." "You're kidding!" "I'm not kidding." "Sounds like you got a raise, too." "Right. 15 dollars to blow on anything I like...toilet paper, floor wax and soap." "Don't forget laundry detergent." "Right." "Hey, you took something of mine when you left." "Your yellow sweater?" "Did you take my sweater?" "Sorry, I wasn't going to tell you." "That's okay. You keep my sweater and I'll keep your skirt." "Skirt?" "You know, the one with all the animals on it." "Oh, yeah. I'd forgotten about that." "Is it a deal?" "We'll trade when you come to visit." "Sour puss. I'm sorry I even brought the subject up." "What were you going to say?" "I was going to say that you took my Suzie Fu Yung recipe." "Did I?" "Yes." "I'll give you that too when you come." "Good." "See? Just think of all the nice things awaiting you when you come." "I can't wait. Hey, I have something for you." "What?" "A riddle." "Shoot." "What has four holder-uppers, four puller-downers, a pair of lookers, and a swishy-wishy?" "I don't know, what?" "I'll tell you when we come to visit." "Oh, no you don't!" "Bye." "Come on, tell me!" "Bye." "Suzie!"

## STATE CAPITAL Highlights AND Sidelights

**AUSTIN—Two runoff races on the June 5 Democratic ballot are turning into tough contests.**

State Rep. Jon Newton, 35, of Beeville, and former Land Commissioner Jerry Sadler, 68, of Grapeland are attacking each other heavily in the Railroad Commission race.

Carl Dally, 52, of Houston is heating up his own campaign for the Court of Criminal Appeals against W. T. Phillips, 63, of Waco, although in a more-restrained, judicial key.

Newton hammers hard on Sadler's record as land commissioner in the 1960's. He notes Sadler put in less than fulltime at the job and was once investigated for having an employee of the land office working in a hotel at Palestine.

Newton also labels Sadler as a figure from the Great Depression, noting his opponent's 1939-1942 service on the Railroad Commission.

Sadler retaliates by terming Newton an "embryo energy expert," not yet born when he (Sadler) began his single term on the oil, gas and transportation regulatory agency. The former commissioner also dwells at length on Newton's financial aid from oil industry representatives and recently claimed the young lawmaker once voted against investigation of the Sharpstown scandals.

Dally claims better qualifications than Phillips on strength of his service as a commissioner in aid to the court for five years and questions whether his opponent (who led in first primary voting) has been active in practicing criminal law during recent years.

### Rules Set

Texas Public Utility Commission adopted new rules providing that utility companies cannot add late charges to homeowners' bills. "Net" as stated on monthly bills must reflect a true discount for early payment.

In return, companies were allowed to disconnect service for non-payment 20 days after a bill is sent out. Other rules would make telephone companies refund money if telephones are out of order eight hours after faulty service is reported unless the trouble is caused by a disaster or the customer's own acts.

Persons over 65 would be exempt from utility deposits unless they owe money from two years back. Rules would also require the utilities to pay interest on deposit, and prohibit them from requiring deposits for home service where customers have a good record with similar connections and furnish evidence of a good credit rating or written guarantee of payment.

On the other hand, the commission allowed about \$20 million in advertising expenditures and charitable contributions to be passed along to utility customers by companies.

### Release Ordered

The State Insurance Board has been ordered by a district judge here to release its application for a \$1.2 million federal grant

to finance a plan to regulate hospital charges. Atty. Gen. John Hill brought suit to make the document public.

### AG Opinions

Attorney General Hill said the Department of Public Safety doesn't have to reveal the list it keeps of people who come and go at the Texas governor's mansion.

In other simultaneous interpretations of the open records act, Hill concluded:

- Names and addresses of burglary victims are public information.
- A city is not required to provide criminal records of drivers in driving while intoxicated arrests.
- A request to a sheriff for "any record your department has" on an individual should be rejected.
- A criminal history record is excepted from required public disclosure, but an individual can see his own record.
- Dallas arson investigation records are partially excepted from disclosure.
- Photos and supplemental witness statements in a carbon monoxide death should not be disclosed as "evidentiary matters."

### Courts Speak

The State Supreme Court set a June 16 hearing on a suit to determine if the state can levy charges on river dredgers for spill from a pipeline company's wharves on the Neches River near Port Arthur.

The high court upheld Arlington in an annexation controversy with the Kennedale community.

In another case, the Supreme Court affirmed a \$2,500 award to a Fort Worth man fired for instituting a workmen's compensation claim.

Court of Criminal Appeals reversed the murder conviction of a Houston woman who gave her husband Seconal capsules while he was asleep.

### Appointments

Lynn M. Moak, former assistant comptroller, will coordinate research for Lt. Gov. Bill Hobby on school finance, property tax reform and the new state budget.

Lee C. Clyburn will become administrative assistant to Atty. Gen. John Hill, and Jim Bushala will move up to the post of executive assistant to the attorney general, succeeding John W. Odam.

### Short Snorts

Comptroller Bob Bullock warned diesel rig truckers against attempts to violate Texas motor fuel laws.

Gov. and Mrs. Dolph Briscoe will present 1976 Janey Briscoe Bicentennial awards for Texas beautification efforts in San Antonio June 11. A total of 127 cities and organizations participated in the competition.

A special election was set July 17 in Mart to pick a new mayor and two other city council members.

Cornerstone of the new Texas Law Center was set in ceremonies May 22. A time capsule placed there will be opened in 2026.

The U. S. Department of Labor is readying for nationwide use a computerized job-matching system pioneered by Texas Employment Commission.

The comptroller's sales tax division has collected \$993,000 in tax judgments since Jan. 1, 1975.

Nearly 600 Texas cities and towns received checks for \$9.1 million as their share of May city sales tax rebates.

## Riding Club Sets Meeting Tuesday

## Supt. Bob Hawes Elected to TASA Executive Board

Bob Hawes, superintendent of the Hamlin Independent School District, has been elected to a position on the Texas Association of School Administrators Executive Committee. He was recently elected to represent TASA's District XIV which includes members from 13 counties served by the Regional Education Service Center in Abilene. Dear Editor:  
The Hamlin Little League wishes to thank the Stamford Electric Coop for the

generous donation of time, money, manpower and equipment in getting our field in playing condition.

Also, we thank those of you who donated time, money and materials in getting our field ready.

## Neinda Philosopher Hopes Washington Understands Voters' Wrath Mostly Talk

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One comes to the defense of Washington this week, more or less.

Dear editor::

The way the television analysts have it, the harder a candidate runs against Washington these days the more popular he is with the voters, but we don't want to over-do it and I hope Washington understands this is mostly just campaign talk.

For example, I doubt if there's a mayor or a county judge in the country who gets mad when Washington sends down another revenue-sharing check, unless it's smaller than the last one. Or show me a person over 65 who gets mad when Medicare pays his hospital bill. Where's the state highway department that gets mad because Washington is financing a large part of its roads? Where's the aircraft or railroad company mad because Washington is bailing it out? One way to make New York mad is to fail to renew its two billion dollar loan. And if Washington really wants to invoke the voters' rage, just stop Social Security.

Don't misunderstand me, I'm with the rest of the voters, I get mad at Washington myself, especially when I figure the other fellow is getting more from there than I am.

Outside of all the above and a few others I've failed to mention, I join the rest of the voters in saying Washington has got to buckle down, throw out the red tape, and cut out all this wild spending. Why have 2,000 different bureaus all spending the tax payer's money when 100 could spend just as much?

Changing the subject, as I understand it, the government has charged that some big meat packers have been selling the army a cheap tough grade of beef, calling it a high grade with a high price, and cleaning up.

This sure relieves my

HAD VISITORS? That's news, call the HERALD.

mind. For a while there I thought maybe the army had got hold of one of my Jersey steers. Yours faithfully, J.A.

### JRB SERVES YOU BEST...SAVES YOU MOST

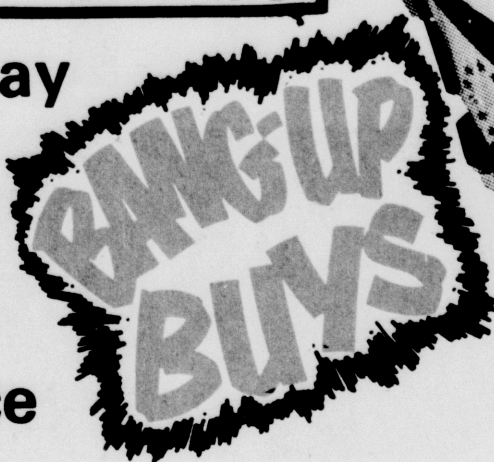

We're celebrating our birthday and America's with an eye-poppin', cannon roar-in', hum-dinger of a Birthday-Anniversary sale. It's our 31st and Uncle Sam's 200th and there will be fireworks all over the place. It's our rip-roaring way of saying "Thanks" to all our fine customers — new and old — in the scores of communities we have the privilege to serve. Our slogan has always been — "JRB Serves You Best — Saves You Most," and in this Bicentennial Anniversary Year we are trying even harder to make that more meaningful than ever before. Anyway, thanks for being such good customers — and good friends. Come in and have a big slice of our Anniversary Savings Cake! We think you will enjoy it.
